

A practical sourcing partner.

Product requirements, supplier conversations and documented decisions - connected in one sourcing project.

SialSourcing helps international buyers plan sourcing projects in Pakistan. Services can include supplier review, sample development, order coordination, inspection arrangements and shipment planning. The proposed scope is confirmed for each enquiry.

MANUFACTURING REGIONS

REGION	PRODUCT ENQUIRY FOCUS
Sialkot	Surgical and dental instruments, sports goods, apparel and leather products.
Wazirabad	Cutlery, kitchen knives and related product enquiries.
Faisalabad	Fabrics, bed and bath textiles, table linen and relevant apparel enquiries.

HOW A PROJECT MOVES FORWARD

Clarify the brief. Define the product, quantity, materials, destination and sample requirements.

Review the production route. Assess supplier suitability and identify what needs to be confirmed before quotation.

Coordinate the agreed work. Record sample approvals, production milestones, inspections and shipment instructions.

Your proposal defines the engagement. Confirm deliverables, timing, responsible parties, payment terms and delivery arrangements in writing. Supplier capability, testing availability and required product evidence are reviewed for the specific order.
